

24 JUL 1963

1. This memorandum is to cover movement of 4 pieces, 1780 lbs., 162 cube from Philadelphia to Andrews Air Force Base, Washington, D.C., 22 July 1963.

2. Request for truck transportation in lieu of commercial means was due to:

A. Urgent requirement for material at destination.

B. In order to ship commercial, material would have required overpacking due to its nature, thereby causing a delay in shipping.

C. Due to the total cube, cost of overpacking, and urgency of requirement at destination, it was deemed both desirable and economical to the Government to ship via Agency truck.
